COMMITTEE: SLP Public Schools

Committee Chair: Alyssa Webster

- 1. Primary Accomplishments in 2018-2019:** Researched and responded to inquiries regarding a wide range of topics, including: dysphagia in schools, SLP role in dyslexia, and human trafficking/pain management training requirements.
- 2. Major Challenges/Barriers:** A major challenge was and has been building an advisory assembly of SLPs with an interest in the public schools. There is so much MSHA members have shared that they want the Public Schools Committee to accomplish, but we need members with a motivation to make all of these ideas happen.
- 3. Plans/Directions for 2019-2020:** Create a renewed interest and life for the Facebook page to connect our members with one another ([Michigan Speech Language Hearing Association-- Public School Committee](#)). Increase communication between this committee and MSHA members by providing opportunities for us to share ideas, clearer outlets to ask questions, and general discussion.
