

Patient Name: _____

DOB: _____

Hearing Age: _____

Developmental Age: _____

Guiding Questions:	Notes
1. What is my primary target for this activity? <ul style="list-style-type: none">• Auditory?• Language?• Speech?	
2. What will show me that the child has reached the target I have set?	
3. What activity will lend itself to achieving the goal at hand?	
4. Can I integrate secondary target areas into this activity?	
5. What language will I use to elicit the target?	
6. What strategies will I use to move the child toward the target behavior?	
7. Am I prepared to use diagnostic teaching to change the target as necessary? (Have I identified “back-up” and “move forward” goals to implement as necessary?)	
8. What strategies will I use to give the child’s parent the same power to elicit the target that I have?	
9. How will I guide home carryover?
