

DID YOU KNOW?

Michigan SLPs providing services under the Medicaid School Based Service program **are not required** to have the ASHA CCC certification. MI SLP licensure only.

Please email msha@att.net with questions.

DID YOU KNOW

Schools are not able to establish their own provider qualifications, but they can require additional items (i.e. CCC certification) as long as the provider minimally meets Medicaid's qualifications as well.

This is an individual ISD's decision and there may be variances in additional provider requirements between them.

Please email msha@att.net with questions.

DID YOU KNOW?

Student Interns and Educational Limited Licensees are not enrollable Medicaid providers. Medicaid requires services performed by these individuals to be reviewed, co-signed, and billed under their appropriately credentialed supervising speech-language pathologist.

Please email msha@att.net with questions.

DID YOU KNOW?

Payers/programs have the authority to set the provider qualification standards for reimbursement. These can vary across State Medicaid programs. At this time, Michigan has chosen to require the conditions outlined within 42 CFR § 440.110 (2)(i), full CCC certification, in addition to State licensure.

Please email msha@att.net with questions.

DID YOU KNOW?

MSHA's Advocacy Committee is currently working on the following efforts:

- Passage of HB4101 which extends the educational limited license (for clinical fellows) from 12 to 24 months
- Increased Medicaid reimbursement rates for SLPs across the state
- Interstate Compact (ASLP-IC)

Please email msha@att.net with questions.

DID YOU KNOW?

Per the Medicaid Provider Policy Manual, Michigan Medicaid requires SLPs to have the ASHA CCC to bill for services in outpatient and nursing facility settings.

Please email msha@att.net with questions.

Hey!

Attention

Invite a friend to join MSHA. We need members to help our State Association continue to support SLPs across the State of Michigan.
