**Learning Outcomes**

Upon completion of the webinar, participants will be able to:

1. Describe at least two differences between CELF Preschool–2 and CELF Preschool–3.
2. Explain how to obtain and score the Connected Speech Sample using the *No Juice!* book
3. List at least two subtests that comprise the Academic Readiness Index and the Early Literacy Index.
4. Describe how recommendations for next steps differ depending on quantitative test results and patterns of performance

 CELF Preschool-3

---

---

---

---

---

---

---

**What is CELF Preschool-3?**

- o Individually administered, norm-referenced instrument to assess the language and communication skills of children ages 3–6 years.
- o Used to identify, diagnose, and perform follow-up evaluations of language and communication deficits in preschool-age children.

 CELF Preschool-3

---

### Comparing CELF Preschool–2 and CELF Preschool–3

- Discontinue rule reduced for several subtests.
- Reformatted CELF Preschool–2 Stimulus Books. CELF Preschool–3 now only includes one Stimulus Book.
- The *No Juice!* story has been repurposed as a story retell task for the Connected Speech subtest (instead of a recalling sentences task on CELF Preschool–2.)

10

---

---

---

---

---

---

---

---

### Administration and Scoring Options

Options	Administration	Scoring
<b>Print</b>	Print Manual, Stimulus Books, and Record Form	<ul style="list-style-type: none"> <li>○ Manual</li> <li>○ Q-Global</li> </ul>

---

---

---

---

---

---

---

**Subtest Changes**

The CELF Preschool–3 subtests included in the CELF Preschool–2 battery were broadened in scope.

Easier and more difficult items were added to more adequately cover the range of developmental skills.

 CELF Preschool-3

14

---

---

---

---

---

---

---

---

**Administration Time**

- Administration time for the three subtests required to determine the Core Language Score is 15–20 minutes, depending on the child's age and responsiveness.
- The time it takes to administer the remaining subtests varies depending on the child's age, language ability, level of motivation, and the subtests selected.

 CELF Preschool-3

15

---

---

---

---

---

---

---

---

### Sentence Comprehension (SC)

- The child identifies a picture that matches the sentence read aloud by the examiner.
- Has improved floor and/or ceiling.

Score			
Demo	A	B	
	C	D

### SC: What Does it Measure?

Sentence Comprehension Item Analysis			
Structure	Item	Structure	Item
Adjective	1 (sleepy), 21 (ready)	Relative clause	13 (who is standing in the front of the line), 14 (who is holding the baby)
Prepositional phrase	2 (in the basket), 5 (in the box), 15 (toward the girl), 17 (in line)	Passive voice	11 (is being followed), 18 (is being pushed)
Verb condition	3 (is running), 8 (will find), 12 (can get)	Compound sentence	10 (She is climbing, and he is swinging.), 17 (The first two children are in line, but the third child is still playing.)
Noun modification	5 (spotted puppy), 7 (little ball), 9 (big, spotted, black-and-white dog), 17 (first two, third)	Indirect object	16 (the dog)
Infinitive	6 (to bake), 21 (to go)	Indirect request	19 (Shouldn't you wear your jacket?)
Negation	4 (not)	Subordinate clause	20 (although she doesn't need it), 22 (before she ate the sandwich)

Note: Item numbers in bold appear in more than one category.

17

---

---

---

---

---

---

---

---

### Word Structure (WS)

- The child completes a sentence (cloze procedure) with the targeted structure(s).
- Improved floor and/or ceiling.
- Added demo items between test items.

Score		
big, bigger, biggest		
14. faster	1	0
15. fastest	1	0
16. she does	1	0
17. he is (standing)	1	0
jumped		
18. climbed	1	0
19. she is	1	0
20. they are	1	0
21. herself	1	0
22. blew (the bubble)	1	0
will paint		
23. will slide/will be sliding	1	0
rode		
24. fell	1	0

18

---

---

---

---

---

---

---

---

## Word Structure (WS)

- The child completes a sentence (cloze procedure) with the targeted structure(s).
- Improved floor and/or ceiling.
- Added demo items between test items.

		Score	
Demo	is a girl		
Trial 1	sitting	+	-
Trial 2	dogs	+	-

19

---

---

---

---

---

---

---

---

## WS: What Does it Measure?

Word Structure Item Analysis			
Category	Item	Category	Item
Preposition	2 (in), 4 (on)	Copula	6 (it is big), 19 (she is), 20 (they are)
Regular plural	8 (horses)	Pronoun	
Possessive noun	9 (dog's)	Objective	5 (her), 10 (him)
Verb tense		Possessive	7 (hers)
Progressive (-ing)	1 (sleeping), 3 (walking)	Subjective	16 (she does), 17 (he is)
Third person singular	11 (sleeps), 12 (flies)	Reflexive	21 (herself)
Future tense	23 (will slide)	Derivational form	
Regular past tense	18 (climbed)	Noun derivation	13 (singer)
Irregular past tense	22 (blew), 24 (fell)	Comparative and superlative	14 (faster), 15 (fastest)

20

---

---

---

---

---

---

---

---

## Expressive Vocabulary (EV)

- The child names an object, person, or activity portrayed in a picture.
- EV contributes to the new Academic Language Readiness Index, along with the Following Directions and Pragmatics Profile subtests.
- The calculator, telephone, and newspaper were removed.

21

---

---

---

---

---

---

---

---

### EV: Example Item

		Score	
Demo	bird		
Trial 1	sock	+	-
Trial 2	crying	+	-

CELF Preschool-3

22

---

---

---

---

---

---

---

---

### EV: What Does it Measure?

Expressive Vocabulary Item Analysis			
Category	Item	Category	Item
Verbs	2 (riding), 7 (pouring), 12 (wrapping)	Science	<b>10</b> (trunk), <b>11</b> (telescope), 13 (footprint), <b>14</b> (branch), <b>17</b> (binoculars)
Food	1 (carrot)	Sports	18 (medal)
Tools	4 (ladder), 5 (umbrella), <b>11</b> (telescope), <b>17</b> (binoculars), <b>21</b> (scale)	Part/whole relationships	9 (zipper), <b>10</b> (trunk), <b>14</b> (branch)
Occupations/people	8 (firefighter), <b>19</b> (veterinarian), 20 (audience)	Math	6 (triangle), 16 (calendar)
Music/instruments	3 (guitar)	Medical/health care	15 (wheelchair), <b>19</b> (veterinarian), <b>21</b> (scale)

Note: Item numbers in **bold** appear in more than one category.

CELF Preschool-3

23

---

---

---

---

---

---

---

---

### Following Directions (FD)

- The child points to pictures in response to oral directions.
- Contributes to the new Academic Language Readiness index, along with the Expressive Vocabulary and Pragmatics Profile subtests.
- Includes a **NEW** task of following directions by pointing to body parts.
- Has improved floor and/or ceiling.

CELF Preschool-3

24

---

---

---

---

---

---

---

---

### FD: Familiarization Items

Following Directions (FD)

NEW Task

**Ages 3-4**  
START

Familiarization 1	Point to your... [head, foot, eye, mouth].	+	-	<input type="checkbox"/> FD not administered. Child did not point to all the body parts correctly.
Familiarization 2	Point to your... [nose, ear, hand]. Go.	+	-	

**Ages 5-6**  
START

Familiarization 3	Point to the... [cat, turtle, elephant, monkey, tiger].	+	-	<input type="checkbox"/> Items 5-24 not administered. Child did not point to all the animals correctly. Go to Familiarization 1 or discontinue.
Familiarization 4	Point to the... [dog, fish, bear, giraffe, bird]. Go.	+	-	

Pearson CELF Preschool-3

25

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

### Recalling Sentences (RS)

The child imitates sentences presented by the examiner.

		Score	
<b>Trial 1</b>	The dog is eating.	+	-
<b>Trial 2</b>	What is in the box?	+	-

28

---

---

---

---

---

---

---

---

### RS: What Does it Measure?

Recalling Sentences Item Analysis			
Category	Item	Category	Item
Active declarative	1, 3	Active interrogative with negative	7
Active declarative with Prepositional phrase	2, 4	Passive declarative with Negative	9, 13
Coordination	6	Coordination	11
Noun modification	5, 10	Passive interrogative	8
Subordinate clause	12		
Relative clause	14, 15		

29

---

---

---

---

---

---

---

---

### Basic Concepts (BC)

The child points to a picture that illustrates the targeted concept presented by the examiner.

					Score	
<b>Demo</b>	little	A	B	C		
<b>Trial 1</b>	sad	A	B	C	+	-
					Score	

30

---

---

---

---

---

---

---

### BC: What Does it Measure?

Basic Concepts Item Analysis	
Concept	Item
Direction/location/position	1, 2, 10, 16, 20, 22
Number/quantity	3, 6, 9, <b>23, 24</b>
Sequence	4, 19, 21
Attribute	13, 14
Dimension/size	7, 8, 18
Same/different	15, 17
Inclusion/exclusion	5, 11, 12, <b>23, 24</b>

*Note.* Item numbers in **bold** appear in more than one category.

CELF Preschool-3

31

---

---

---

---

---

---

---

---

### Word Classes (WC)

- The child chooses two words/pictures that are related from a choice of three or four words/pictures.
- Dropped expressive section where the child explains the relationship between the selected word pair. Repurposed as extension testing procedure.
- Has improved floor and/or ceiling.

CELF Preschool-3

32

---

---

---

---

---

---

---

---

### WC: Example Item

				Score	
Demo	A.) bread	B.) shoe	C.) apple		
Trial 1	A.) cat	B.) lamp	C.) dog	+	-
Trial 2	A.) clock	B.) paintbrush	C.) paint	+	-

CELF Preschool-3

33

---

---

---

---

---

---

---

---

### WC: What Does it Measure?

Word Classes Item Analysis			
Category	Item	Category	Item
Toys/leisure	2, 6, 13	Food and drink	9, 14
Home	1, 3, 10, 16, 18, 19, 20	Body parts	11
Clothing	5, 7	Transportation	12
School	4, 8, 15	Animals	17

34

---

---

---

---

---

---

---

---

### Consider extension testing if more information is needed

- Extension testing involves systematically varying subtest content, directions, and/or the responses required
- Determine where and when the child's ability to demonstrate a skill begins to break down
- Use results for planning direct intervention and to inform recommendations for improving the child's skills at home and for classroom accommodations and/or modifications

35

---

---

---

---

---

---

---

---

### Extension Testing

- After testing and interpreting the CELF Preschool–3 results, consider using extension testing to learn more about the factors that may have contributed to a child's errors.
- Extension testing results allow for making judgments about the degree of difference between the conditions under which children perform the skill proficiently and their performance in real-life and academic situations.

36

---

---

---

---

---

---

---

---

## Extension Testing for Word Classes

### Suggested Modifications

Ask the child to categorize and classify pictures, photos, toys, or other objects by semantic categories (e.g., fruits, vegetables, liquids, meats, furniture, clothing, tools, toys, body parts).

Then, ask the child to reclassify the pictures by selected characteristics, attributes, or conditions (e.g., hard, soft, hot, cold, big, small).

### Dialectal Variations – Scoring

- Responses to the Word Structure (WS), Expressive Vocabulary (EV), Recalling Sentences (RS), and Connected Speech Sample (CSS) subtests may contain regional and cultural patterns or variations that reflect dialectal differences from Standard American English (SAE).
- Selected dialectal patterns are presented in the manual (Appendix A) along with examples of responses to items in selected CELF Preschool–3 subtests that are considered appropriate for dialects other than SAE.

---

---

---

---

**CELF PRESCHOOL-3**

- Although always important to have multiple views of a child's performance of certain skills, it is particularly important for young children
- Although each subtest has robust psychometric characteristics, young children are particularly sensitive to the formats in which they are asked to "perform" a task. One procedure may not elicit the target behavior, whereas another may.
- It would be easy to overinterpret a good or poor performance based on the one norm-referenced subtest, even when assessing the child's skills in multiple contexts.
- When making a diagnostic decision, use the CLS, RLI, and ELI composite scores *in conjunction with the other assessment results you obtained during your comprehensive assessment.*

## Connected Speech Sample: Language Structures

### Rate the language structures produced

- Acceptable:  $\geq 90\%$  correct
- Emerging: At least one correct production
- Beginning: No correct productions

**Table: Language Structures**

KEY	Acceptable (90% correct)	Emerging (At least 1 correct production)	Beginning (No correct productions)
Word Structure (n)	Examples from the Connected Story Sample		
Progressive (ing)	1 sleeping, 2 walking	is walking	
Preposition (in)	2 in	in basket	
Preposition (on)	4 on	on table	
Regular plural	8 (nouns)	books, kids, boxes	
Irregular plural	22 (nouns)	feet, men, came	
Possessive ('s)	9 (nouns)	Mommy's hat, boy's car	
Articles (a, the)	18 (nouns)	a girl, the store	
Regular past tense (-ed)	11 (verbs)	grabbed, slipped	
Regular third person singular (-s)	11 (verbs)	walks, runs	
Irregular third person singular	12 (verbs)	does, has	
Copula (verb)	10 (is, are, was, were)	he is tired, he's tired

## Connected Speech Sample

**Are these results in a semi-structured task consistent with performance in**

- highly-structured test tasks (i.e., Word Structure, Recalling Sentences)?
- the child's spontaneous speech or other language sampling or dynamic assessment procedures?
- what the teacher and/or parent reports?

**Do the results of all your assessment procedures have implications for**

- therapy activities, or
- recommendations for the teacher in a classroom setting?

CELF Preschool-3

75

---

---

---

---

---

---

---

---

## Social Communication

Observations of social communication behaviors

- Descriptive Pragmatics Profile
- Pragmatic Activities Checklist

### Descriptive Pragmatics Profile (DPP)

**Nonverbal Communication Skills**

The child appropriately responds to a familiar person's...

1. facial expression (e.g., smiles, frowns, looks of surprise)
2. tone of voice (e.g., angry, happy, sad)
3. gaze when they reference an object in the immediate environment.

### Pragmatic Activities Checklist (PAC)

**NONVERBAL:** Gaze, gestures, expression, and body language

The child...

- ☐ 1. did not use gestures to reference people/objects nearby (e.g., pointing, head nodding, waving)
- ☐ 2. did not use gestures to reference people/objects at a distance (e.g., pointing, head nodding, waving)
- ☐ 3. did not respond to his or her name being called.

- Which pragmatically-appropriate behaviors did the child exhibit on the DPP?
- Which atypical pragmatic behaviors did the child exhibit during interactive activities on the PAC?
- What are the implications of these results, for families and teachers, regardless if direct services are recommended?

CELF Preschool-3

---

---

---

---

---

---

---

---

76

## Interpreting the Academic Language Readiness Index

- Subtests include:
  - Expressive Vocabulary
  - Following Directions
  - Pragmatics Profile

This index describes the receptive/expressive language and socialization skills needed in the classroom.

CELF Preschool-3

---

---

---

---

---

---

---

---

77

## Interpreting the Early Literacy Index

- Subtests:
  - Phonological Awareness
  - Preliteracy Rating Scale

Many LEAs require a measure of early literacy skills to inform school quality or student growth.

---

---

---

---

---

---

---

---

---

### Age Equivalents

Limitations with interpretation. Best used for:

- Research purposes
- Establishing a % delay to inform DD

$\% \text{delay} = 1 - (A.E./C.A.)$

20 % delay =  $1 - (48 \text{ months}/60 \text{ months})$

20% delay =  $1 - .80$

## Interpreting change in SSs and GSVs

Table 5.8 Interpreting Change in a Child's Scaled Scores and Growth Scale Values Over Time

Score pattern	Scaled score interpretation	GSV interpretation
Both scaled score and GSV increase.	If the child's scaled score on the first administration was below average (e.g., 70), the gap between the child's performance and the performance of typically developing children of the same age has narrowed.	The child is acquiring new language skills.
Scaled score does not change and GSV increases.	The child's ranking relative to same-age children has not changed.	The child is acquiring new language skills.
Scaled score does not change and GSV increases very little.	The child's ranking relative to same-age children has not changed.	The child is acquiring new skills at a slow rate.
Scaled score decreases and GSV increases.	The child is not acquiring new skills as quickly as other same-age children. The gap between the child's performance and the performance of typically developing children of the same age has widened.	The child is acquiring new language skills.
Both scaled score and GSV decrease.	The child is not acquiring skills as quickly as other same-age children. The gap between the child's performance and the performance of typically developing children of the same age has widened.	The child did not demonstrate his or her best performance during testing (e.g., because of illness, inattention, or behavior issues) or the child is regressing—losing previously mastered language skills—because of a progressive condition or late onset of a condition (e.g., seizure disorder) or an accident or injury (e.g., traumatic brain injury).

## Connected Speech Sample:

### Story organization, facts & details

Rate Story Organization and Recalling Facts and Details

DIRECTIONS: Circle the text below that most accurately describes the child's narrative.

	Acceptable	Emerging	Beginning
Story organization	<ul style="list-style-type: none"> <li>Adequately developed and organized</li> <li>Story parts and details are organized in a recognizable pattern with a clear beginning, middle, and end.</li> </ul>	<ul style="list-style-type: none"> <li>Developing and partially organized</li> <li>Story parts and details are organized in an emerging pattern in either the beginning, middle, or end.</li> </ul>	<ul style="list-style-type: none"> <li>Inadequately developed with little or no organization</li> <li>Story parts and details are jumbled and do not follow any recognizable pattern of organization. Outcomes are not clear.</li> </ul>
Recalling facts and details	<ul style="list-style-type: none"> <li>Adequately recalled</li> <li>Story parts and supporting details are adequately recalled in the beginning, middle, and end of the story noted.</li> </ul>	<ul style="list-style-type: none"> <li>Developing and partially recalled</li> <li>Story parts and some details are recalled but they are inconsistently distributed among the beginning, middle, and end.</li> </ul>	<ul style="list-style-type: none"> <li>Inadequate and minimally recalled</li> <li>Story parts are minimally recalled and supporting details are generally missing in the beginning, middle, and end.</li> </ul>

Are these results consistent with

- the child's spontaneous speech during testing?
- what the teacher and/or parent reports?
- language sample results?
- performance on other CELF Preschool expressive subtests or in spontaneous speech?

What implications are there for therapy activities or instructions you provide to the teacher for classroom activities?

86

## Connected Speech Sample: Story grammar

Story Grammar		Score
1 point for each response	1 point for each response	
Task (max 2 points)	My name is _____	0/2
Setting (max 2 points)	I am in the _____ I am with _____ I am at _____	0/2
Characters (max 2 points)	I am _____ I am with _____ I am at _____	0/2
Main idea (max 2 points)	My name is _____	0/2
Events (max 2 points)	I am _____ I am with _____ I am at _____	0/2
Middle (max 2 points)	I am _____ I am with _____ I am at _____	0/2

Are the results consistent with the child's language sample or structured test results?

- Were there any "stories" or events that the child talked about during testing or during collection of a language sample?
- If so, did the child provide necessary details about the people and actions in the story?
- Could you follow the story easily or did you have to ask clarifying questions to understand who and what the story was about?

**Case Study: Child Y, Age 4:11**

- Full-day preschool program for almost 1 year
- Born full term
- Hearing and vision within normal limits
- Likes: playing with other children, music, song, dance
- Teacher reports slow progress learning letters, shapes, numbers
- Parents report lack of interest with books, responds "IDK" to many questions, understand 100% of what she says
- Parents requested eval at private practice

## Case Study Summary

- Demonstrates a language impairment
- Areas of need: expressive language and preliteracy skills
- Target goals: morphology, syntax, phonological awareness, letter/number recognition
- Support at home and inclassroom for reading and writing activities
- Progress monitoring by teacher and SLP consult
- Provide parents with reading/writing activities through age-appropriate stories to support goals/objectives

**Table 5.7 Suggested Recommendations for Services Based on Test Results**

Adequately developed	Development in transition	Inadequately developed
Connected Speech Sample (CSS) story grammar scores are acceptable and/or developmentally appropriate.	Connected Speech Sample (CSS) story grammar scores are beginning or emerging slower than expected for the child's age.	Connected Speech Sample (CSS) story grammar scores are beginning or emerging slower than expected for the child's age.
Connected Speech Sample (CSS) language structures results appear to be acceptable and/or developmentally appropriate.	Connected Speech Sample (CSS) language structures results appear to be beginning or emerging slower than expected for age.	Connected Speech Sample (CSS) language structures results appear to be beginning or emerging slower than expected for the child's age.
The CELF Preschool-3 standard scores are in the average or above average range.	The CELF Preschool-3 standard scores are in the marginal/below average/mild range.	The CELF Preschool-3 standard scores are in the low or very low range.
No special services required.	Classroom intervention/intervention in the home is recommended. Consider SLP direct services or consult with classroom teacher/family for indirect services.	SLP direct intervention is recommended. Consider providing classroom intervention/intervention in the home in addition to direct SLP services.

### Learning Outcomes: Review

Upon completion of the webinar, participants will be able to:

1. Describe at least two differences between CELF Preschool–2 and CELF Preschool–3.
2. Explain how to obtain and score the Connected Speech Sample using the *No Juice!* book
3. List at least two subtests that comprise the Academic Readiness Index and the Early Literacy Index.
