

Yes We Can!

AAC Intervention via Telehealth
A Case Study and Lessons Learned

Presented by:

Monica Tabila, M.A. CCC-SLP

Erin Cain, M.A. CF-SLP

Latrisha Lake, Project Manager,
Chair of BrightBlue, Caregiver

Disclaimers

- We have no financial interests or relationships to disclose
- We are not perfect!

Background - Monica Puenta Tabila

- Mother of a 2 year old
- Speech Language Pathologist, Owner of BE HEARD LLC
- Favorite quote, "Start where you are. Use what you have. Do what you can." - Arthur Ashe

Background - Erin Cain

- Family caregiver
- Speech Language Pathologist
- Favorite quote, "You have brains in your head. You have feet in your shoes. You can steer yourself any direction you choose. You're on your own. And you know what you know. And YOU are the one who'll decide where to go." - Dr. Seuss
- Second favorite quote, "If the patient isn't progressing then you as the clinician need to fix something." Karen O'Leary

Background - Latrisha Lake

- Mother of M.
- Project Manager at Blue Cross Blue Shield of Michigan
- Chair of BrightBlue
- Favorite quote, "The will to win is nothing without the will to prepare". Bobby Knight

Why share our story?

- April 2020 conference call at the state level
- A question was raised whether “non-verbal kids” are even appropriate for telehealth, and if we could even serve them
- Yes we can! We are. And they’re doing great!

Background on BE HEARD in telehealth

- Researching telehealth platforms and logistics when the Covid-19 pandemic arrived in Michigan
- Set up our clients in person the middle of March, and began telehealth services within days
- One month interruption in services due to insurance issues

How it started

How it's going

Celebrating 1 Year of Telehealth Services

Presentation Outline

- Background: Tele-AAC
- Background: M.L. and K.M.
- Challenges
- Environmental modifications (video tutorials)
- Prompting (video case studies)
- Communication (video case studies)
- Best practices (video case studies)

Background: Tele-AAC 1 of 2

- Approximately 4 million Americans (1.3%) cannot rely on their natural speech to meet their daily communication needs (Beukelman and Mirenda 2012)
- For preschoolers with special needs, the prevalence of complex communication needs may be as high as 12% (Binger and Light 2006)

Background: Tele-AAC 2

- Telepractice has the potential to reach underserved populations worldwide
- "Telepractice leads to similar or even better clinical outcomes when compared to conventional interventions." (WHO, 2011 p.119)

Tele-AAC Working Group of the 2012 ISAAC Research Symposium 1 of 2

- Competent implementation is contingent upon
 - Appropriate and adequate technological infrastructure
 - Hardware
 - Software
 - Internet
 - Telecommunications
 - Trained personnel

Tele-AAC Working Group of the 2012 ISAAC Research Symposium 2 of 2

- Opportunities of Tele-AAC in service delivery
 - Needs assessments
 - Implementation planning
 - Device/system procurement
 - Set-up and training
 - Quality assurance
 - Client progress monitoring
 - Follow-up service delivery

Challenges

- Adjusting to change
- Connection glitches
- Frequency and duration of treatment
- Distractions
- Different (literal) point of views
- Materials
- Prompting

Hardware

- Hardwired Desktop
- Back up laptop
- Tablet
- Document Camera
- Phone
- Charger
- Mobile hotspot
- Headphones

Document Camera

Software / Skills

- HIPPA Compliant interactive video platform
- Dictation
- Spell check
- Grammar check
- Copy and paste
- Screen sharing
- Copying a link to open another application
- Using the chat
- Boom Cards
- Boardmaker
- PRC LAMP resource

Other materials

- Toys, books, stickers, whiteboard and markers
- Drinks/snacks
- Tissue
- Fan
- Blanket/sweater
- Assessments
- Lighting

Stickers

Handling glitches and connection issues

- Problems at times for both clients and clinicians
- Invested in having two telehealth platforms
- Shared recommendations for optimal connection during sessions
- "3 strikes, you're out!" policy when trying to get something to work
- Muting while playing videos or games to prevent echos
- Consider mobile hotspot/ "jet pack" for backup internet

TELEHEALTH TIPS

SET YOURSELF UP FOR SUCCESS

Schedule a reminder
Set up in a quiet area and minimize distractions
Be prepared with everything you need
Check your camera, microphone and speakers

MAXIMIZE INTERNET

Plug into the router directly or...
Sit where wifi is the strongest
Minimize family use of streaming, video games,
downloads, and uploads during your session
Close all other applications
Schedule calls during non-peak internet use times

END ON A GOOD NOTE

Ask any questions you have about the session
Confirm any follow up appointments or action items

www.behaviorchicago.com

3 Strikes Rule

Different Points of View

- "Do you hear what I hear?"
- "Do you see what I see?"
- "A star! A star!"

Participant Input: Challenges or Hacks ?

Environmental Modifications

- KM moving device higher
- Adjusting for glare on their screen
- Clearing clutter
- Using a larger screen

Adapted Book Tutorial

Adapted Book Resources

- N2Y -Symbol Stix Prime (symbols)
- Scribd (book pdfs)
- Boardmaker

- Sherlock Center

Mr. Clay

Mr. Clay is sitting at a table with colorful kinetic sand. He is holding a green star-shaped sand sculpture. In the background, there is a sign that says "KINETIC SAND AND CORE WORD WHAT". To the left, there is a small cartoon character with a question mark above its head and the word "what" written above it.

KINETIC SAND AND CORE WORD WHAT

what ?

Special Vids for Special Kids - Core Words

A white polar bear is standing on a blue background. To the right of the bear, the text "core word Let's Learn! like" is displayed. The word "like" is in a yellow box.

core word
Let's Learn!
like

Scratch Garden - short and long vowels

A cartoon illustration of a garden with two green frogs on lily pads. Above the frogs are signs for "SHORT" and "LONG" vowels. The vowels "a e i o u" are written in a blue sky. The text "SCRATCH GARDEN" is in a pink box at the bottom left.

a e i o u

SHORT LONG

SCRATCH GARDEN

Horse Playing Recorder

A man in a dark jacket is playing a red recorder. A white horse is standing next to him, looking at the recorder.

Horse Playing Recorder

Canva

A worksheet for sentence construction. It features four rows of yellow and purple blocks. Each row contains the words "The", "is", and "ing" in a yellow block, followed by a blank space. Below the blocks are several writing instruments: a pencil, a pen, a marker, and a highlighter.

Fill in the blanks to write a sentence using a noun, verb and object.

The is ing

Adapted Video Tutorial - Toonly

Participant Input - Envir. Modifications

Background on ML

- 9 year old boy
- Bright, independent, fun child
- Medical history
- Online school
- Speech Therapy, ABA Therapy, and Occupational Therapy

Background on KM

- 10 year old girl
- Energetic, affectionate, motivated
- Autism, Dysarthria, and Cerebral Palsy (CP), visual impairment
- Speech therapy, ABA therapy, Occupational, and Physical Therapy

Prompting

- Searching
- Typing the word
- Video or static video model
 - Identical symbols, similar
 - Written words, drawings
- Verbal navigating through folders
- Coaching the parents to assist
- Sign Language and gestures

Modeling navigation of device

Modeling search function

Providing a communication board

Drawing symbol prompts on the fly

Drawing multiple choice options

Wait time

Participant Input - Prompting

Communication

- Parent Coaching
- Mental Health Check ins
- What the best hardware is
- How the parents want to be involved in the session
- Explaining purposeful silence
- Narrating awkward silences
- Reminding parents of goals targeted

Rapport with Clients

- Ask how they are feeling!
- Address any primary needs (thirst, bathroom, hunger, rest, security, safety)
- Address sensory or transitional needs
- Cheer up if necessary
- Acknowledgement of effort and communication attempts
 - Parallel talk
 - Recasting
 - Respectful redirection

How to find out how your client is doing

- Modeling
- How are you feeling?
- Choice board
- Pit and Peak of the week
- Choose an emoticon

How are you?

feel

happy	silly	hungry	calm
sad	mad	sick	tired

This block contains a title 'How are you?' in a green box, a 'feel' box with two faces, and a 2x4 grid of emotion cards with illustrations and labels: happy, silly, hungry, calm, sad, mad, sick, and tired.

I'm feeling...

Calm	Happy	Silly	Relaxed
Nervous	Annoyed	Sad	Shy
Surprised	Hungry	Angry	Confused
Sleepy	Sick	Hurt	Hot

On a scale of emojis, how are you feeling?

1 2 3 4
5 6 7 8

ZONES OF REGULATION!

Blue	Green	Yellow	Red
Very High Alert	High Alert	Low Alert	Very Low Alert
Very High Arousal	High Arousal	Low Arousal	Very Low Arousal

This block features a grid of 16 emoji-based emotion cards, a scale of 8 emojis numbered 1-8, and a 'ZONES OF REGULATION!' chart with four color-coded zones: Blue (Very High Alert), Green (High Alert), Yellow (Low Alert), and Red (Very Low Alert).

- ### What to do if they're feeling blue
- Listen to a favorite song
 - Watch a funny video
 - Get moving!
 - Affirmations
 - Choose a familiar activity they will have success with
 - Give more frequent positive reinforcement and rewards or breaks

ML - Respectful Redirection

This block contains the text 'ML - Respectful Redirection' above a solid black square.

- ### Total Communication
- Accepting all forms of communication
 - Gestures
 - Signs
 - Verbal
 - High and low tech devices
 - Writing
